ABSTRACT:

PROBLEM TO BE SOLVED: To effectively use a blank space in a template.

SOLUTION: A user connects a user terminal 50 to a WWW server 10 via the Internet to search the required template and to be downloaded, the user clicks a URL 56 of a banner advertisement 55 to be connected directly to a home page of an advertiser since the banner advertisement 55 is displayed in the blank space of the template when the template is opened by a software after the download, information about a form of the template is obtained from the home page, the form is allowed to be ordered, and convenience is enhanced extremely

thereby.
